DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: The prior art made of record does not teach a position control system for an electrical motor including control sections for comparing a command position and a measured position signal and outputting a sine wave signal corresponding to a command position signal when the difference between the measured position and the command position is within an electrical angle of 90 degrees; and when the difference between the two signals is higher than 90 degrees, the control section outputs a signal that excites the motor such that the motor is at a stable excitation point at an angle of 90 degrees ahead of the rotor position.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rina I. Duda whose telephone number is 571-272-2062.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Martin can be reached on 571-272-2107. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
